

The guiding philosophy at Deerassic Park Education Center is to reconnect youth and families with the outdoors through activities and recreation that help foster and develop a life long appreciation for the outdoors and nature.

Seeing a trend in the late 1990's and into the early 2000's of declining youth involvement in the outdoors, Deerassic Park Education Center was established to combat these declines. Since then, the staff at the facility have provided a myriad of programs and events designed for youth and families to experience the outdoors and become participants in a variety of outdoor activities.

We can't do it alone.

# MAKING A DIFFERENCE IN OUR COMMUNITY

The Deerassic Park Education Center is committed to impacting our local community through programs such as Outdoor Education, Field Trips, Summer Camps, In-Class Visits, Youth/Disability Hunts and various Community Events.

## YOUTH DEVELOPMENT

All kids deserve the opportunity to discover who they are and what they can achieve, under the guidance of caring staff who believe in their potential. We see every interaction with youth as an opportunity for learning and development.

## CONSERVATION

We stress the importance of the outdoors, hunting, and the habitat around us to youth and families. Our job is to use the resources provided by Mother Nature wisely, to ensure the use by future generations.

## ACTIVE LIFESTYLES

We promote activities that can last a lifetime. Too much of our lives revolve around indoors and electronics. Helping someone find their outdoor niche so they can live a healthier, active lifestyle is what we're all about.

## MAKING A DIFFERENCE

12,000

youth attend  
Deerassic events  
annually.

300

kids enjoy a life-  
changing experience  
at summer camp.

70-80

school field trips  
annually visit  
the Park.

**"I appreciate all that Deerassic Park provides for the community and all who support them. So much of our daily lives revolve around indoor activities and electronics. The programs Deerassic provides allow kids to reconnect with the outdoors. My child can't wait to come back!"**
